Thoruplund has now started with the production and sale of our brand new "Ocean of Roses" series in 10,5 cm pots. The stunning new varieties have been selected and tested in close cooperation between Thoruplund and the Danish breeder Queen® Genetics, with the objective to set new quality standards in rose breeding.

Selection criteria when cultivating new crops:

- Well-documented improved longevity and ornamental value.
- Well-documented high level of ethylene resistance.
- Cultivation with reduced need for chemical growth regulation.
- High resistance to mildew and low water consumption.
- Optimal plant quality, throughout the season; also early spring and late autumn.
- Large, luxurious flowers in vibrant long-lasting colors.
